# 學校簡介

賽馬會匡智學校是匡智會屬下 14 間特殊學校之一,於 1981 年 9 月成立,是一所專為中度智障兒童提供教育服務的政府津貼學校。專為教育六至十八歲中度智障兒童而設。學生是按年齡和能力編班,可提供 60 名學額。

# 資料詳情

本校是一所照顧中度智障兒童的特殊學校‧學生均有不同程度的學習障礙‧加上近年自閉症學生的數目增加‧如何加強學生在溝通表達、社交等方面的訓練成了本校另一大挑戰。本校近年運用額外資源增聘音樂治療師到校服務‧在訓練學生的過程中‧體現到以音樂作媒介能有效提升學生的溝通和學習動機‧特別是對非華語學生而言(本校有超過 50%學生為非華語生)‧音樂更是不可或缺的教學元素。因此‧我們期望進一步擴大音樂治療服務範圍‧讓更多學生受惠‧並透過優化本校現有音樂室成為「多導向啓發潛能音樂室」‧結合音樂、藝術及感統元素‧提供更多元化的音樂學習設備和空間‧從創、唱、聽及演的多元學習模式‧讓學生在自主的環境下探索音樂‧並提升學生的溝通和學習動機。優化項目詳情如下:

## 優化原有音樂室成為多導向啓發潛能音樂室,工程包括:

- 1.1 建造多感官音樂裝置隧道,在一條約7米的裝置隧道內,讓學生從視覺、聽覺、觸覺 去感受音樂,並透過裝置內的軟件進行音樂創作,以及與同學互動合奏
- 1.2 建立錄音室,打造具備更佳隔音功能的專業錄音空間
- 1.3 設置小舞台,讓學生進行綵排,體會群體學習的重要性

## 2. 擴大音樂治療服務,包括:

- 2.1 增加音樂治療師到校日數至每星期兩天
- 2.2 將音樂治療融入校本音樂課程,音樂老師與音樂治療師協作教學
- 2.3 舉辦校內教師培訓及與業界分享經驗,提升本校同事對音樂治療的認識,並延續優質的學與教經驗,將計劃成果與業界分享,以提升特殊教育界的音樂課程質素。

# **Funding Proposal**

Project Title: JC La La Land - Multisensory Inspiring Studio

**Beneficiary:** Hong Chi Association - The Jockey Club Hong Chi School

## **Proposal Prepared in July 2021**

# Introduction of The Jockey Club Hong Chi School

The Jockey Club Hong Chi School is one of the 14 special schools operated under Hong Chi Association. Established in September 1981, it is a government-subsidized school with a capacity of 60 places providing education services to children with moderate intellectual disabilities at the age of 6 to 18. Students are allocated to groups according to age and learning ability.

#### **Project Details**

Our school is a special school for children with different degrees of learning disabilities. With the increase in the number of autistic students in recent years, it has become another challenge for us to strengthen the training of students in communication and social skills. In the past few years, we used additional resources to employ music therapists to serve our students. In the process of training students, we have found that music is an effective medium to enhance students' communication and learning motivation. Especially for non-Chinese speaking students (over 50% of our students are non-Chinese speakers), music is an indispensable teaching element. Therefore, we hope to further expand the scope of music therapy services to benefit more students, and to change our music room into a "multisensory studio" to provide diverse music learning facilities and space by combining elements of music, art and sensory integration. A multimodal learning through composing, singing, listening and performing will allow students to explore music in a self-directed environment and will strengthen their communication and motivation for learning. Details of the optimization project are as follows:

# 1. Upgrade the original music room to a multisensory inspiring studio. The project includes:

- 1.1 Constructing a multisensory music tunnel to allow students to experience music from sight, hearing, and touch in a 7-meter installation tunnel, to create music through the software in the installation, and to interact with classmates;
- 1.2 Establishing a recording studio to create a professional recording space with better sound insulation;
- 1.3 Setting up a small stage for students to rehearse and experience the importance of group learning.

# 2. Expand music therapy services, which include:

- 2.1 Increasing the frequency of music therapists' service to 2 days a week;
- 2.2 Integrating music therapy into the school-based music curriculum with collaborative teaching by music teachers and music therapists;
- 2.3 Organizing teacher trainings in order to enhance the knowledge of our colleagues in music therapy, and to continue the quality learning and teaching experience;
- 2.4 Organizing experience sharing session to share the results of the project in the special education sector so as to enhance the quality of music programs in the sector.

#### 3. Sponsorship Amount

HK\$1,500,000-

#### 4. Number of Beneficiaries

- ➤ Current students: about 40 students can benefit from it per school year. Students are entitled to a minimum of 30 sessions of 30-minute music therapy in a school year.
- ➤ Parents of current students: an annual "Music Therapy Parent-Child Workshop" will be organized to enable parents to learn how to conduct appropriate music therapy activities with their children at home. About 15 parents will benefit from each workshop.
- ➤ Our staff: teacher training workshops will be held to increase the knowledge of the school's 18 staff members on music therapy, and how to apply the multisensory and inspiring studio facilities to daily teaching.
- ➤ Pre-school children and parents: 2 sessions of "Music Fun at J.C." will be held per year, benefiting about 30 families.
- ➤ **Professionals in the sector:** a practical experience and achievement sharing session will be organized to share the ideas and results of this project with 50 fellow educators in the special education sector.
- ➤ The 40th Anniversary Celebration cum Open Day: the multisensory inspiring studio will be opened for 300 guests, alumni, members of fellow schools and the public to visit and to try out the equipment.
- 5. Time Limit of Sponsorship Confirmation (If applicable) N/A.
